Tuya WiFi IR Remote Controller
for Smart Home

IR80S is a Tuya WiFi IR Remote Controller with elegant and slim design. By adopting UFO shape, 360 degree omni-directional signal transmission range could be covered. It is used to control all infrared household equipments such as TV, Air-conditioner, Fan, Set-top Box, DVD. With Tuya Smart App, you can conveniently control the household equipments through cellphone anytime anywhere, under 2.4GHz network environment.

By working with Google Echo and Amazon Alexa, just a voice command can be used to control the equipments at home, without reaching to the switch and activate the equipments manually.

Embedded with over 8500+ infrared codes database, IR80S can identify most of the infrared codes from these wellknown brands. If not included, it supports DIY code learning.

Besides, schedule control, scenery settings and sharing functions are available.

Features:

Tuya Smart Compatible

360° Omnidirection Emission
