

USB 3.0 SATA 2.5" & 3.5" DUAL BAY HARD DRIVE DOCKING STATION

The Sabrent Dual Bay Hard Drive Dock enables you to access and transfer data between your computer and two hard drives simultaneously, or between the two hard drives themselves. Moreover, you can also use the Sabrent Dock to clone hard drives offline at maximum speed. Plug and play support for both 2.5" and 3.5" SATA, SATA II, SATA III and SSD HDDs (up to 3TB per bay). USB 3.0 Interface supports super speed data transfer up to 5Gbps (reverse compatible with USB 2.0). Especially ideal for system integrators, administrators and computer technicians.
