Mi Smart Antibacterial Humidifier

EU Version：ID：27194 SKU：SKV4140GL

KR Version：ID：27193 SKU：SKV4139KR

Ultrasonic humidification with UV-C Light

- The ultrasonic humidifier diffuse cool visible mist into air that help to moisture the room.
- 4.5L large water tank for 12-15 hours continuous mist output.
- UV-C light built inside the water tank helps killing germs in water to protect health for family.

Top Fill Water Tank

- Refill water by simply pouring water on the top of the water tank, no need to carry the big water tank back and forth.

Adjustable Mist Level

- 3 optional mist levels can be adjusted according to your preference.
- Maintain a constant humidity level automatically with a built-in humidity sensor.

Remote Control

- Remotely turn on\off, set a timer, adjust mist level and check the humidity level from Mi Home APP.

Voice Control

- Compatible with Google Assistant and Alexa*, use voice to turn on/off the humidifier.

Elegant Design
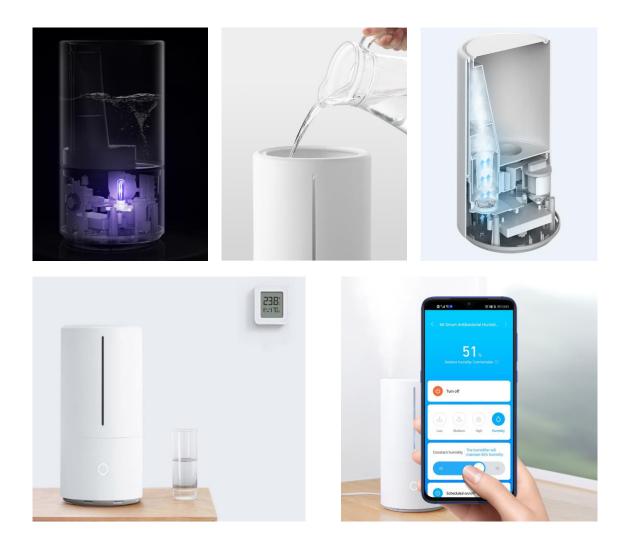

- The white elegant body fits naturally in your house.
- Atmosphere light in the water tank makes it easy to read the water level and mist level.

Super Quiet Operation

- The humidifier operates at less than 38dB of noise. Ultra-quite that can be used when sleeping.

*Works with Google Assistant & Alexa certificate will coming soon.
