User's Manual

A  2x 3/8"-5/8" Adapter Screws

B  Steel Knob with 3/8" Thread Male

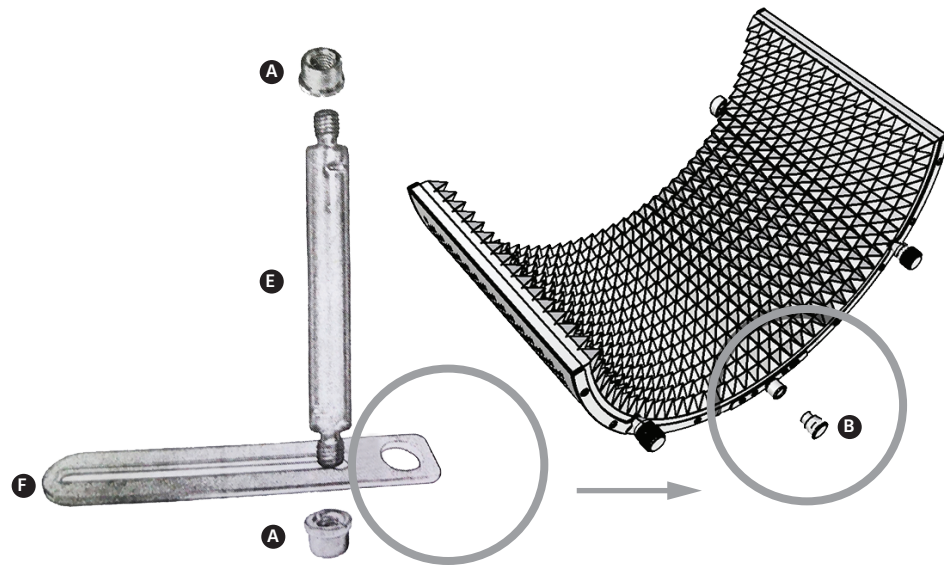

C  2x Allen Screws

D  2x Allen Wrench

E  Microphone Rod

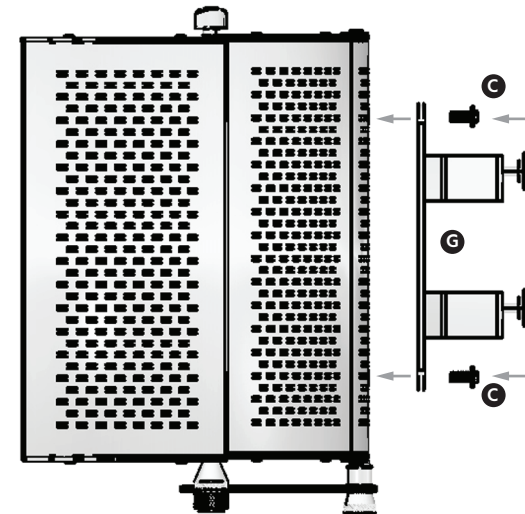

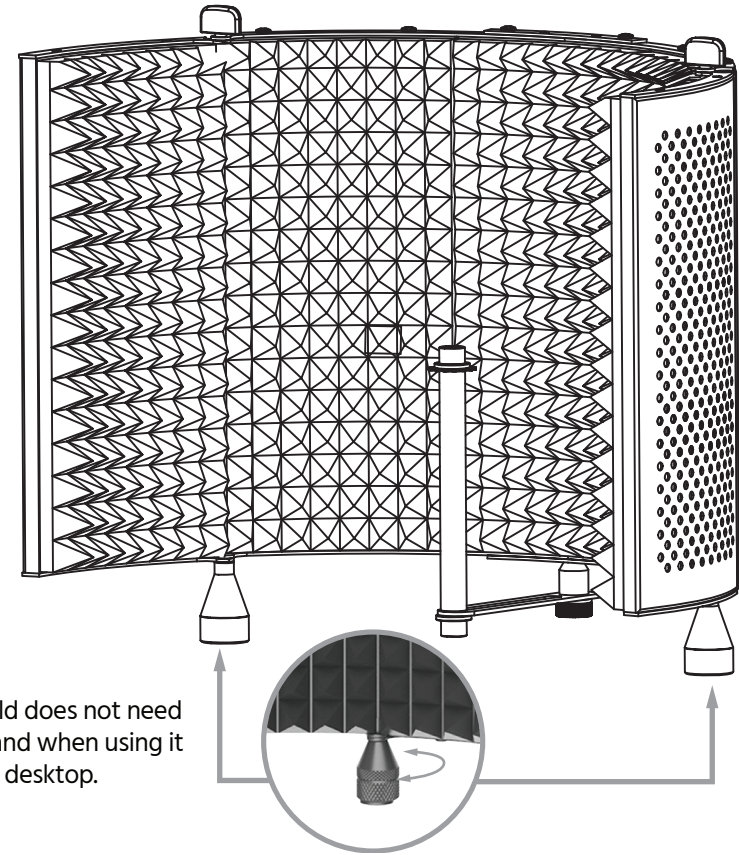

F  Microphone Slider Bar

G  Double Heavy-Duty Clamps

1. Insert one end of the Microphone Rod (E) into the 3/8" hole in the Microphone Slide Bar (F), then screw one of the 3/8"-5/8" Adapter Screws (A) onto the end of the Microphone Rod (E).

2. Unscrew the middle leg base of the Microphone Shield. Place the 5/8" hole on the Microphone Slide Bar (F) over the screw, then secure it in place by screwing the middle leg base back onto the Microphone Shield.

3. Unscrew the Allen Screws (C) on the back of the Microphone Shield using the included Allen Wrench (D). Position the Double Heavy-Duty Clamps (G) on the back of the Microphone Shield, then secure it in place by screwing the Allen Screws (C) back into the Microphone Shield.

4. Slide the Heavy Duty Mounting Stand up into the Double Heavy Duty Clamps (G), then secure it in place by tightening the clamps.
